To Whom It May Concern,

This letter serves to formally acknowledge and commend the exceptional performance of students from Cambodia-China University of Technology and Science (CCUTech) during their internship at Oneroad Group.

We have had the privilege of hosting several interns from CCUTech, and we are continually impressed by their commitment to learning and their ability to effectively apply theoretical knowledge in practical automotive service scenarios. The interns have shown a strong grasp of automotive technology, including diagnostics, repair techniques, and maintenance procedures.

Their hands-on skills and proactive approach have made significant contributions to our operations, demonstrating their capability in tackling various automotive challenges. Furthermore, their ability to collaborate within our team and communicate effectively has created a positive and productive work environment.

In conclusion, the interns from CCUTech have proven to be valuable members of our team during their internship, and we are confident that their skills and dedication will lead them to successful careers in the automotive service industry.

“三型协同” 跨境校企合作培养人才探索

南京工业职业技术大学校长 谢永华

下面我就南京工业职业技术大学“三型协同”跨境校企协同培养人才的思路与探索与大家分享交流。教育部党组书记、部长怀进鹏在《人民日报》撰文指出，加大创新实践能力培养力度，强化科教协同和产教融合育人，加快培养急需紧缺人才，着重培养创新型、复合型、应用型人才。积极发展职业教育，增强职业教育适应性，加快构建现代职业教育体系。校企协同育人是贯彻落实国家产教融合发展战略的需要，也是深化职业教育人才培养模式改革的需要。

1. 校企协同育人整体思路

(1) 校企协同育人产教融合存在的问题。职业院校在开展校企合作的过程当中面临的问题总结起来就是“三热三不热”的现象，一是官热民不热，二是上热下不热，三是校热企不热。产生问题的主要原因有以下几个方面，第一是产教分离的体制问题尚待解决；第二是政府部门间缺乏相互主动协调；第三是企业主体参与职教内驱力不够；第四是学校自身内功不强。校企合作正从原先的初步基础阶段，向深度全方位校企命运共同体阶段过渡。

职业教育作为一种类型教育，具有跨界的天然属性，需要从“校企利益融合”“校企制度融合”“校企资源融合”“校企人员融合”“校企技术融合”“校企文化融合”等方面推进产教融合，协同育人。

(2) 职业本科人才培养定位。校企协同育人中，企业更关注培养具有“精深性”岗位能力、有潜力成为“能工巧匠”“大国工匠”的卓越人才，学校则侧重具有“创新性”“复合性”的岗位拓展能力的现场工程师、卓越工程师。在职业本科办学中，我们将人才培养定位为：通过育人与育才的统一，教育与教学的结合，培

Proof of the Replicability and Promotability of the Curriculum Model from Cambodia-China University of Technology and Science at Cambodia University of Technology and Science (CamTech)

Cambodia University of Technology and Science (CamTech) to officially endorse the adoption of the curriculum model implemented by Cambodia-China University of Technology (CCUTech) for our Computer Networking and Artificial Intelligence programs. We believe that this innovative "Chinese + Professional Courses" curriculum is not only highly effective but also replicable and promotable within our institution and beyond.

The CCUTech curriculum combines essential technical education with Chinese language training. This dual focus equips students with both the specialized skills required for their respective fields and the language proficiency necessary to engage in an increasingly globalized job market. The integration of these elements enhances students' employability and prepares them for diverse professional opportunities.

Adopting the "Chinese + Professional Courses" curriculum from CCUTech for our Computer Networking and Artificial Intelligence programs at Cambodia University of Technology (CamTech) presents a unique opportunity to enhance our educational offerings. The proven success of this model, combined with its replicability and scalability, positions it as a valuable asset for our institution.

We are committed to implementing this innovative curriculum and believe it will significantly benefit our students, equipping them with the necessary skills and opportunities to thrive in a competitive job market. We look forward to the positive outcomes this partnership will bring and are excited about the potential for collaboration with CCUTech and other institutions.

DUON HOA UNIVERSITY

Proof of the Replicability and Promotability of the Curriculum Model from Cambodia-China University of Technology and Science at Duon Hoa University

The Cambodia-China University of Technology and Science (CCUTech) has pioneered a curriculum model that effectively integrates technical skills, language proficiency, and industry collaboration. This innovative approach has not only enhanced the employability of its graduates but also provided a sustainable framework for vocational education. The purpose of this document is to demonstrate the replicability and promotability of this curriculum model, particularly through its successful application at Duon Hoa University.

The CCUTech curriculum is built around three key components:

1. Technical Skills Acquisition: Emphasizing hands-on learning and practical skills aligned with job market needs, ensuring graduates are workforce-ready.
2. Language Proficiency: Incorporating language training to enhance communication skills in both Khmer and English, preparing students for global opportunities.
3. Industry Collaboration: Actively collaborating with local businesses to provide real-world experiences through internships and projects, which help students build professional networks.

Effectiveness and Replicability of the Model

The effectiveness of this model is demonstrated by the high employment rates of CCUTech graduates. Employers have praised their readiness and adaptability. At Duon Hoa University, the model's implementation has led to similar success, with students reporting increased confidence and satisfaction among local businesses.

Key factors supporting the model's replicability include:

1. Customization for Local Needs: The model allows adaptation based on regional economic demands, making it relevant to local industries.
2. Modular Curriculum Structure: This flexibility enables incremental implementation of components, easing integration into existing programs.
3. Strong Industry Partnerships: Collaborations with local businesses enhance learning experiences and provide valuable internship opportunities.

Promotability of the Model

The success of the CCUTech curriculum model highlights its potential for broader promotion. Key aspects contributing to its promotability include:

1. Demonstrated Success: Positive outcomes such as high employment rates make a compelling case for adoption by other institutions.
2. Scalability: The model can be adapted to various educational levels and institutions, increasing its reach and impact.
3. Supportive Framework: The Cambodian government's focus on improving vocational education provides an ideal context for promoting this model.
4. Global Relevance: The emphasis on language skills and technical training is applicable in various international contexts, encouraging adaptation in other countries.

DUON HOA UNIVERSITY

The CCUTech curriculum model demonstrates significant promise in enhancing vocational education through its focus on skills. Global Relevance: As globalization continues to shape economies and labor markets, the emphasis on language skills and technical training in the CCUTech model resonates on an international scale. Other countries facing similar challenges in vocational education can draw inspiration from this model, adapting it to their own contexts while maintaining the core principles.

柳州职业技术大学应用南工境外办学模式的应用证明

为推动职业教育国际化发展，破解境外办学教学体系构建难题，柳州职业技术大学与南京工业职业技术大学（以下简称“南工”）建立合作关系，借鉴其境外办学模式，创建“标准融合、要素协同”的境外办学教学体系。

南工境外办学模式在职业教育国际化领域具有重要影响力。柳州职业技术大学机电工程学院应用该模式，旨在解决境外办学中专业标准难以融入当地教育体系、课程资源碎片化、师资配置不均衡、实训基地建设滞后等问题，通过“标准融合、要素协同”的教学体系构建，提升境外办学教学质量，为我国职业院校境外办学提供可复制的方法论。

柳州职业技术大学机电工程学院应用南工境外办学模式，创建了“标准融合、要素协同”的境外办学教学体系，实现了从资源单向输出到“中外融合、校企共生”的系统升级，最大限度地发挥了资源的集约效益，为高质量本土人才培养提供了可靠路径，也为境外办学教学体系的构建提供了可复制的方法论。

为响应国家“一带一路”倡议，推动职业教育国际化，青海职业技术大学与南京工业职业技术大学（南工）建立战略合作，借鉴其境外办学模式，在境外开展职业教育合作办学。

南工境外办学模式以“实体化办学、协同化治理、本土化融合”为核心，通过灵活学制实现中外双学位认证，为境外培养技术技能人才。青海职业技术大学应用该模式，旨在破解境外办学1.0阶段的“顶层设计之困、本土适配之困、持续发展之困”，深度融合综合命运共同体、产教融合与利益相关者理论，立足“构建职教命运共同体”愿景，系统重构境外办学2.0“实体化、本土化、可持续”的底层逻辑与顶层架构，为我国职业院校境外办学提质升级提供理论支撑与实践范式。

青海职业技术大学应用南工境外办学模式，在境外开展职业教育合作办学，取得显著成效。该模式通过构建“治理-教学-目标”三维贯通、“八化”特征集成的系统框架，实现范式革命，为我国职业院校境外办学提质升级提供理论支撑与实践范式。

常州机电职业技术学院应用南工境外办学模式的应用证明

东华应用科技大学作为中国职业教育首所海外应用技术大学，由南京工业职业技术大学与柬埔寨东华理事总会合作共建，采用“4+0”“2+2”“3+1”等模式开展职业本科学历教育，学生可获中柬两国双学位证书。我校借鉴其成功经验，探索境外办学新模式。

我校应用南工境外办学模式，成功实现职业教育“走出去”，为东南亚人才培养提供可复制路径。
